

WEEK 06 / GAMING'S IMPACT ON PEOPLE AND SOCIETY

Games, Society, Religion, War, and Ethics

Exploring the impact of video games on civic engagement and the portrayal of war and violence.

This week, we explore how video games influence civic engagement and discuss the representation of war and violence in gaming. We will analyze the social and political implications of these themes and their effects on players and communities. And we'll also discuss the ethical considerations of game design and content, including the responsibilities of developers and the impact of gaming on societal norms. Finally, we'll explore how religion and spirituality are represented in games, examining the ways in which games can reflect, challenge, or reinforce religious beliefs and practices.

9-Year-Old Kills Friend For Bragging About Beating Him at a Video Game

[YOUTUBE](#) | ~7 MIN

<https://www.youtube.com/watch?v=8l1arhnfKok>

The tragic tale of a 9-year-old boy who killed his friend for bragging about beating him at a video game in 1989. Although not directly related to depictions of violence in video games, this story highlights the potential for violence and aggression in gaming culture.

LO 2: Students will be able to critically assess how video games reflect and shape cultural values, norms, and societal issues.

LO 4: Students will be able to discuss ethical concerns surrounding gaming, including issues related to violence, addiction, monetization practices, labor concerns, and virtual identities.
